## 1900! Hawaiian Scenic Calendar 1900!

This popular Calendar for 1900 will be by far the finest piece of work ever gotten up for this trade. It now enjoys a larger circulation than all other similar calendars combined. The publisher found it necessary to get out a THIRD edition this last year in order to fill the large and increasing demand. (THE FIRST EDITION WAS 2,000.) This 1900 Calendar will be the "Ne Plus Ultra" Calendar of the year! Don't buy any but the best, and the friends to whom it is sent will bless you always and for aye! The following is an extract from a letter just received from the finest Art and Color Printers in Chicago, who have the printing of the "Hawaiian Scenic Calendar" for 1900:

"We will be able to furnish you with a piece of work as attractive and artistic as anything that has ever reached the Islands. We therefore appreciate the confidence you have placed in us, and we shall see to it that none of the details are slighted," etc.

The cover this year will be a copy of Hitchcock's painting of the Volcano in eruption last July, in oil colors, and the Calendar will give the temperature of Honolulu for every day in the year, with the rainfall for the past fifteen years. A new departure will be FOUR of the best pieces of Hawaiian music in the back of the Calendar, including the National Anthem. The Calendar will be put up in an extra heavy mailing envelope, and will be ready for delivery in time to reach the States and Europe before the New Year. The price will be 50 cents!

J. M. WEBB,  
Golden - Rule - Bazaar  
316 Fort Street.

### THE YACHT CLUB LOT.

Leased on a Long Term by Honolulu's Amateur Sailors.

Prof. Lightfoot has had offered him a 54-foot-over-all schooner yacht with auxiliary gasoline power. She was launched last June and has a good reputation. The price set was \$1000. She would be a great addition to our fleet and we hope the genial yachtsman-professor will see his way clear to bring her down.

Prof. Lightfoot, acting for the yachtsmen, secured from Mr. Dillingham, before he left yesterday, a lease of the ground at Pearl Harbor known as the Yacht Club Lot, and having a frontage of 100 feet on the water, near the railroad wharf.

The lease is for twenty-five years, the first ten years being free from payment and the following fifteen years being at the rate of \$25.00 per month. This lease is the result of considerable negotiation on the part of the committee, Messrs. Lightfoot, Whitney and Thurston, who were appointed at the meeting of yachtsmen some time ago.

The committee will now formulate an outline for a club and procure designs and estimates of cost on a suitable building for the lot, when the whole matter will be laid before another general meeting of the yachting fraternity.

T. W. Hobron is having designs made by V. D. Bacon for a new schooner yacht but has not yet decided whether to have it built this winter or defer it until next summer when he would be able to give it closer attention. V. D. Bacon is the designer of the Gladys now the Eva, which has made so good a showing here.

He has been very successful in combining the three great requisites in pleasure yachts; speed, seaworthiness and room, and if Mr. Hobron builds another yacht from Bacon's plans we may be sure it will be a good one and a flyer.

### THE H. C. C. TRUST DEED

One of the Largest Transactions Recorded Here.

The deed of trust which was filed by W. R. Castle for the new bonds of the Hawaiian Commercial Company last week, and upon which the heaviest stamp duties in the Hawaiian Islands were paid, as already set forth in the Advertiser, is one of the most rigid documents of the kind ever recorded in Honolulu.

It provides for the issue of the \$2,500,000 of bonds maturing in twenty years from October 1, 1899, and drawing interest at the rate of 5 per cent per annum, payable on April 1st and October 1st of each year. All of the lands, franchises, real, personal and mixed property of the Hawaiian Commercial and Sugar Company are hypothecated to the Union Trust as security for the payment of the interest and principal of the bonds, and provision is made for the creation of a sinking fund by the putting aside of at least \$50,000 a year. By special agreement £7500, or its equivalent, is to be used annually for the redemption of the bond issue of 1896, now stated to amount to £127,300. The remainder of the money is to be used for the extinction of the new indebtedness. The Hawaiian Commercial and Sugar Company reserves the right to redeem any or all of its bonds at the expiration of ten years at the rate of \$110 on each \$100 face value in the eleventh year, and \$1 less during each year to the twentieth, when the redemption price shall be \$101 on the \$100 of face value.

Default in the provisions of the instrument extending over six months confers the right upon the Union Trust Company to sell the mortgaged property, but, on the other hand, when not in default, the sugar company, with the consent of the trustee, may sell any part of its property, the money obtained to be used in the acquisition or improvement of plantations, in increasing the sinking fund, the redemption of outstanding bonds or investment in good securities to be approved by the Union Trust Company.

### THE MEN WENT HUNGRY.

A Scandal in the Local Military Post Which Led to Investigation.

There is one class of men attached to the United States army who refuse to maintain a disciplinary silence when short rations are issued to them in lieu of the full rations which should be accorded them by the terms of their contracts, and these are the packers, wagon train men and the cowboys who attend to Uncle Sam's animals en route to the Philippines.

For some days past there have been indications in one of the army corals in Honolulu that the men were not receiving as much food as they were entitled to, although the full rations were delivered at the camp by the local army quartermaster's department. The men grumbled, but still the short rations continued, and an investigation was made, developing the fact that the shortage was to be accounted for after the delivery of the supplies at the corral and before they reached the

kitchen, and that the residue was being sold by some one for the benefit of those who were "in the scheme" to cheat the Government.

The charge was brought directly against the offenders, and a petition to the local quartermaster was signed by fifty of the men, and a committee of five appointed to bring the matter before Colonel Ruhlén. They were courteously received by the Quartermaster, who expressed regret that the men should have been so badly used.

It is understood that Colonel Ruhlén ferreted out the parties responsible and has assigned them on other details.

### GIROFLE - GIROFLE

Miss Josephine Stanton Makes a Hit - Thanksgiving Day.

The production of Girofle-Girofle last night was quite a success. The plots and counter-plots that are incorporated in this opera are humorous in the extreme. The entire organization deserves praise for their musical and dramatic work. The music of the opera is rich and melodious, and most satisfying to various tastes. It flows unbroken from the starting of the overture to the finish of the performance. The choruses are fine and were rendered with a precision, and exactness, that was most creditable.

Miss Josephine Stanton excelled in the dual role of Girofle and Girofla. Her clear soprano voice has good opportunities offered to display its quality. Her acting in the many complicated situations was neat and finished. That she has become the greatest social favorite that has ever played in this city is due solely to her accomplishments as an artist and conscientiousness as a student.

Mr. Henry Hallam, as Marasquin, was well received. He invested the part with a dash and airiness that bespoke dramatic genius, and his voice was in excellent form. Mr. Rogers, as Mourzouk, was fierce enough to suit the most savage Moor; his performance of the part was a revelation, being the best work he has done since the inauguration of the opera season.

Praise is also due Mr. Henderson as Don Bolero—he is a genuine comedian, and everything he touches turns to laughter. It would be a difficult task to imagine him speaking a serious line. While on the stage last night—and it must be confessed he was there most of the time—there was not a moment when he was idle. Miss Katherine MacNeill, Miss Maude Leckley, Miss Annie Leicester and Mr. Alex. Joel, all deserve special mention.

The orchestra under the direction of W. P. Glover was very good, rendering the difficult numbers in the opera with much finished taste.

The opera for tomorrow, Thanksgiving, will be "Chimes of Normandy," and at the Saturday Matinee "Martha" will be given. On Saturday night "Merry War," with the full strength of the company will be produced.

### THE LYRIC'S CONTRACTS.

May be Compelled to Cut Short Their Stay Here

Col. Thompson of the Boston Lyric received two rather important communications in his mail yesterday morning, which may affect the opera season here by bringing it to a close sooner than was anticipated.

It was the original intention in coming to Honolulu to play a season of four weeks. The announcement for eight weeks was made through the advice of persons who knew the excellence of the organization and the support and encouragement it would receive in this city. Certain time had been booked in the States to go into effect after the original four weeks had been fulfilled. Letters had been sent by Col. Thompson to their managers holding such time, explaining the situation and asking for a release. Everything was thought to have been all right by him. The letters yesterday morning, however, were just to the contrary, and demands are made for the absolute fulfillment of the contracts. Nothing definite will be known until Thursday or Friday of this week and Mr. Thompson will endeavor to fill the full eight weeks here. His treatment here has been so royal and courteous that a strong effort will be made to play the full season as originally announced.

### Thanksgiving Matinee.

The Orpheum management has arranged for a special Thanksgiving matinee performance on Thursday afternoon. An entire change of program will be presented and a first-class entertainment is promised. Prices of admission to all parts of the house are for adults 25 cents, children 10 cents. The attendance at last night's performance was very large and every number was well received.

### "Drifting"

A picture on exhibition at the Kilauea Art League gallery which attracted general attention at the reception Monday evening and which was unintentionally omitted from the description of the exhibition yesterday, was an oil marine view by D. Howard Hitchcock entitled "Drifting" depicting a native canoe adrift upon the ocean—a solitary and lonely object upon the crest of a wave.

### PLANS SUBMITTED.

Model Jail for Honolulu Projected.

Plans for the new jail were yesterday handed in by Architect O. G. Trap-hagen. With certain modifications adjudged necessary to meet the requirements of a tropical climate, the architect has closely copied the present Minnesota State prison, considered one of the most satisfactory buildings in the States. The plans submitted provide for the erection of four concrete and steel buildings, two stories high, and containing 360 all-steel cells, whose doors open outwards into a wide hallway which extends all around the building.

Provision is made for dining hall, hospital, chapel and kitchens, all on the most approved plans. Surrounding the entire buildings, a wall of stone eighteen feet high, four feet thick at the base and two feet at the top, is surmounted at each corner with a watchman's tower.

### A PRIVATE STILL.

Raided at Waikiki Last Night by Ch 1 g worth

Deputy-Marshall Chillingworth raided an illicit still at Waikiki at about 9 o'clock last night, and made a seizure of 15 barrels of sam shu together with the complete plant. A Pake named Ah Kee was found in a shack near by, calmly smoking opium, so he and his outfit were brought into town along with various samples of the liquor. The plant was most ingeniously located below the ground level, and the surface pipes were secreted under tubes hidden in a thick patch of rushes and coarse grass.

### A Physicians' Bill.

A bill for \$450, surgeons' fees in connection with the recent fatal accident to Lumahelhi Waipa on the 19th instant, through a fall from his horse on Waikiki turn, was received by Mrs. Parker a few days ago. Upon the advice of the Trustee of the estate, payment was refused on the ground that the charge is exorbitant.

### Islands Participate

The islands of the Pacific and Atlantic Oceans acquired by the United States as a result of the Spanish war, will participate in the exhibits of the American section at the Paris Exposition. The exhibits will be symbolical of the different products of the islands.

### FRESH EVERY DAY.

Delicious Almond Macaroons, Chocolate Eclairs and Cream Meringues, fresh every day at the New England Bakery, Hotel St.; Phone 74.

When a customer asks for Jesse Moore "AA" Whiskey, he does it because he knows that the whiskey is good.
